

year in having overdue books returned, but now and then there is an obstinate case. The bound newspapers in the lower room have been cleaned and arranged in better order and a curtain hung which gives more protection.

On May 21st Mr. and Mrs. Heller - a guest and myself attended the District Library meeting at Tunkhannock. We heard reports of various Librarians as well as our own - a good deal about books and gained some information about Library Service. The Library at Tunkhannock has a shelf of 25 new books which are renewed from time to time and rented at 2¢ a day. Perhaps this means of gaining additional revenue should be considered by us.

Taking into consideration the progress our Library has made during the past two years I believe it compares ^{very} favorably with other Libraries represented at this meeting.

Mrs. Kelly has applied for Library work for her daughter Miriam and Mrs. Scurry for Library work for her niece Mrs. Jeffery. Mrs. Hainwright has served at three sessions during the month of May.
